THE TECH

VOL. XXVI. No. 69 BOSTON, MASS., FRIDAY, APRIL 5, 1907 PRICE THREE CENTS

FRESHMEN WIN BASEBALL.

Defeat Noble and Greenough by 11 to 6 in First Game of Season.

The Freshman Baseball Team met the Noble and Greenough Team at the latter's grounds Thursday afternoon and defeated them by a score of 11 to 6. The game was called after the seventh inning on account of darkness. Maxcy, Loutit, and French did the best all around work for 1910. Maxcy's batting was worthy of special comment, and after the game he was elected temporary captain of the Freshman Team.

TECH 1910	N. & G.
Hurley, p.	Minot, p.
Maxcy, c.	Sweetser, c.
Green, 1b.	Heald, 1b.

The runs by innings were : —

	1	2	3	4	5	6	7
Tech '10	3	0	1	3	2	2	0
N. and G.	0	2	0	1	3	0	0

Score—Tech '10, 11; Noble and Greenough, 6.

COURSE II BASEBALL.

Options 1 and 2 of the Course II Seniors played for the baseball championship of the Course II drawing room Thursday afternoon at the Field. Porter's Heifers representing Option 1 lost to Allen's Colts representing Option 2 by the score of 10 to 6. The championship title accordingly goes to Allen's Colts.

Professor W. T. Sedgwick gave a talk on "Typhoid Epidemics" before instructors in the scientific laboratories of the Institute and the Harvard Medical School, at a dinner of the Bowditch Club.

FENCING SEASON OVER.

Election to Intercollegiate League Marks Close of Successful Season.

As a fitting climax to a successful season came the election of the Institute Fencing Team to the Intercollegiate League. Starting with a green squad of candidates last fall the outlook for the fencing season at the Institute was not very bright. However, under the coaching of Lucien Fournon, the Tech team has come off with three victories in dual contests, offset only by a bad beating in the triangular meet.

In the first meet against Springfield Training School Tech had a rather difficult time, winning out by only one bout. Then came the fizzle at Tufts which ended in a tie. In the second meet with Tufts, the Tech fencers responded in good shape and defeated the strong Medford trio by one bout.

It was the meet with Princeton that gave great hopes for the Institute team. The 6 to 3 victory over that strong team promised that the Institute would have a first rater in the big triangular contest against Yale and Columbia. In this latter event, Yale showed up extremely strong and carried off first honors, with Columbia a close second, and Tech a poor third. The work of Captain Bounetheau's team in this contest was unexpectedly poor.

One of the strongest arguments for the Institute team in the recent meeting of the Intercollegiate League was that Tech sent a team down to New York in order to be ready if the first action was favorable. It is not probable that Tech would have made a very good showing this year in the big con-

(Continued on Page 4)

DEAN TALKS TO ALUMNI.

Tells Philadelphia Men of Progress of Student Interests.

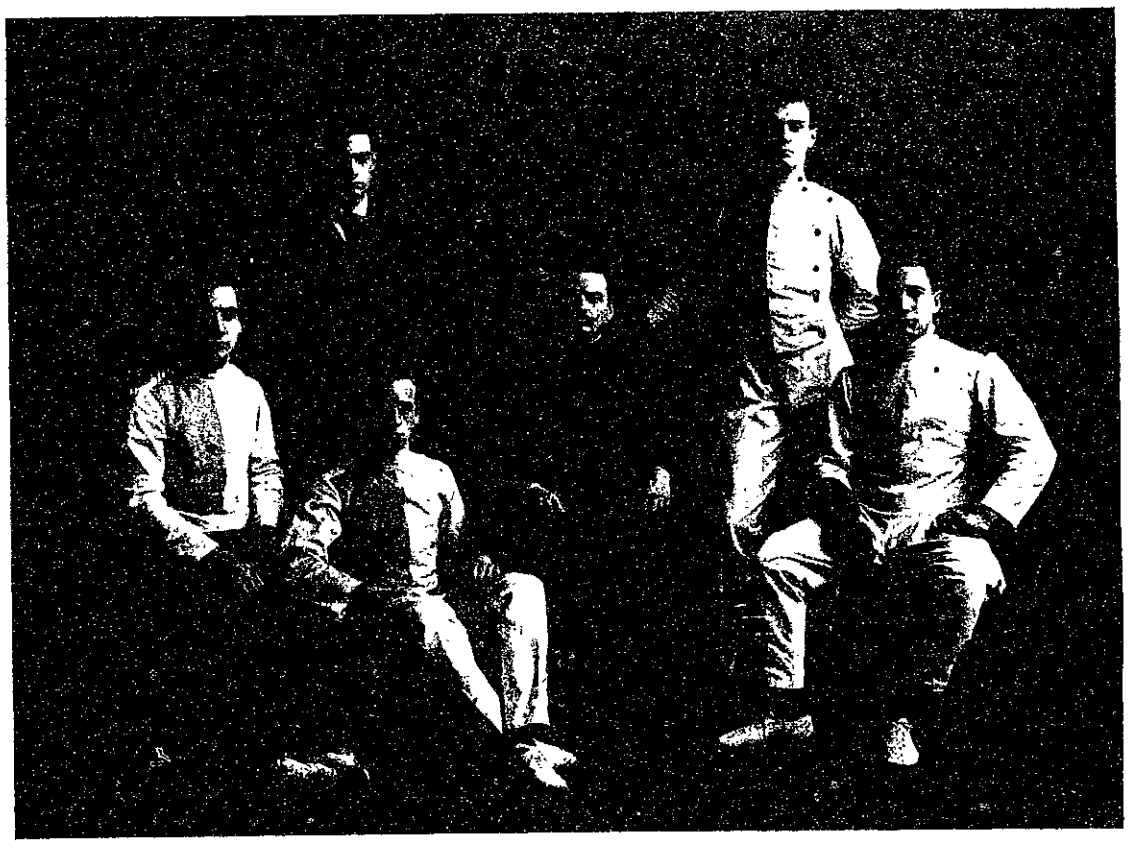
(Special despatch to THE TECH.)

PHILADELPHIA, April 4.—Dean Burton spoke at the dinner of the Philadelphia Technology Club held this evening at the Flanders at 7.30 o'clock. His subject was, "Progress in Tech student interests during the last five years." He told of the development of student life during that time, paying especial attention to some new institutions that have recently sprung up.

Professor Burton told of the Kommers and the different state clubs which are very recent in their inception, and described them thoroughly. He spoke of the progress of the Tech Show and the work being done on THE TECH and *Technique*. He traced the growth of athletics during recent years under the direction of the Advisory Council, and described the new Field. Professor Burton's opinion was, that, during the time he described, student interest in these different organizations had greatly increased.

Professor Burton was warmly received by the Tech graduates, of whom there were about forty-five present. The other guests at the dinner were Dr. James K. Young, dean of the Wharton School at the University of Pennsylvania; Hon. Charles E. Smith, editor of the *Philadelphia Press;* S. M. Vauclain, of the Baldwin Locomotive Works; and Major Cassius E. Gillette, chief engineer of the Philadelphia Filtration Bureau.

The Cornell baseball squad has gone on its annual training trip to the south.



FENCING TEAM, '06-'07

Sitting — Loring, Turner, Coach Fournon, Capt. Bonnetheau. Standing — Manager Place, Lange.

CALENDAR.

FRIDAY, APRIL 5.

4.10 P.M. Prof. Swain's Reading in 11 Eng. B.

4.15 P.M. Tech Show Chorus Rehearsal at the Union.

FACULTY NOTICES.

Scholarships.—Each applicant for a scholarship (except a State scholarship) for the ensuing year should hand in his application blank at the Registrar's Office, and leave his name before April 15th on a special card enclosed in an envelope, in Professor Dewey's box in the Registrar's Office. (Blanks and cards may be obtained at the Registrar's Office.) With the name state the class, course, and all free hours for consultation. Each applicant will be notified through the Cage in regard to date selected for consultation. Students applying, therefore, should inquire at the Cage for mail.

State Scholarships. — Applications should be made to the Secretary of the State Board of Education on blanks to be furnished at the State House. While the State Board of Education has full control of the State scholarships, it is customary to submit all applications to the Faculty for endorsement as to standing, and for such advice as other data in the possession of the Faculty may warrant. For this reason, while the Scholarship Committee has no authority to request conference or further information from applicants for State scholarships, it will always be glad to receive and consider all information that may be furnished. In any case, students intending to apply for State scholarships are requested to notify the Registrar to that effect.

NOTICES.

Institute Committee.—There will be a meeting of the Institute Committee in the Trophy Room at one o'clock today.

Mechanical Engineering Society.—The annual election of officers of the Mechanical Engineering Society will be held at the next regular meeting Nominations should be handed to the secretary before April 10, 1907.

THE TECH

Published every Monday, Wednesday, and Friday during the college year (from September to June), by students of the Massachusetts Institute of Technology.

Entered as second-class matter October 6, 1904, at the post office at Boston, Mass., under the Act. of Congress of March 3, 1879.

Friday, April 5, 1907.

It would hardly seem necessary that the notice posted last year prohibiting the throwing of pennies from Institute buildings should have to be repeated. Such a warning should be met by the common sense of the men, and the wishes of the authorities in this matter heeded. The practice is not only disturbing, but injurious to the local reputation of the Institute, and THE TECH would take pleasure in seeing it stopped.

The Prom.

With the Junior Prom only three weeks distant it seems appropriate to say a few words about it to the student body in general, but more particularly to the Class of 1908. The Committee has been working hard for the last month making all the necessary arrangements, and it now rests with the class to make the affair a success. To this end every man can contribute by buying a ticket and attending what is one of the most prominent and perhaps the most important social function of the year.

Some people seem to think that because the committee has been entrusted with the management of the affair and with the disposal of the tickets, the class has thereby been relieved of all responsibility, and is not bound to interest itself farther in the matter. We would remind such men that the committee are merely delegates of the class, and while they are of necessity closely identified with the Prom, are still perfectly powerless to make it a success without the co-operation of their fellows.

We therefore would urge every man to attend who possibly can. It takes time to make out a program and many men have already almost completed their arrangements. Further delay in securing a ticket will very likely lead only to disappointment and disgust.

NOTICES.

Hare and Hounds. — The hare and hounds run this week will be held at Reading. The trail will be laid by Howland, '08, and Batchelder, '09. A special car has been provided to leave the North Station at 2.10.

N. Y. Club.—The annual business meeting and dinner of the New York State Club will be held at the Union Wednesday, April 10. Reply postals will be sent to all New York men at the Institute and replies should be returned to the secretary at an early date.

FORTY FIVE AT M. A. H. S. DINNER.

At the second annual dinner of the Mechanic Arts High School Club held Wednesday evening at the Union, forty five men were present, including several guests from Harvard and Tufts, and undergraduates of the school.

Dr. Parmenter and Mr. Hanson of the school were present and spoke briefly to the club, Mr. Hanson telling of the development of *The Artisan*, the school paper recently started. Excellent music was furnished by L. J. Killion, '05, and O. G. Fales '07, who gave their famous cross-banjo duet.

PUMPING AND HOISTING MACHINERY.

Mr. T. W. Sprague delivered the third lecture in his course on "Electricity in Mining" in 2 Rogers, at 4 o'clock Wednesday afternoon. He dealt chiefly with the use of electricity in pumping and hoisting machinery.

His opening remarks referred to the proper stringing of wires, and the choice of high or low voltage, taking into account economy and safety. The latter part of the lecture was illustrated with lantern slides showing different forms of electric-driven pumps and a great many different makes of electric hoists. Mr. Sprague wished to show that the use of these hoists, was not "in its infancy" as some people maintain. One very interesting slide was a photograph of a truck, fitted up to draw coke from the ovens and load it into cars by means of electric power. The last lecture of this course will occur next Monday.

Harvard and the Naval Academy will meet in a foot-ball game next season for the first time in the history of the institutions. The game will be played on October 10 at Annapolis.

FENCING SEASON OVER.

(Continued from Page 1.)

test as the team showed too weak in the last meet of the season.

The future of fencing is now full of promise. All of the active members of this year's team will be at the Institute for two years to come, and there are several good substitutes that can be developed into first class material. On the first team there is Captain Bounetheau, Lange, Turner, and Loring, while Weinhagen is the best substitute in sight. All of these men have worked up into fine form this year and will be experienced men in the next season.

POSITIONS FOR EVERYBODY.

Call at the Parker House today for interview with Hapgood's men if you want a good position in business, teaching, and technical work.

W. A. KEMPER '04 VISITS THE 'STUTE

Mr. W. A. Kemper of the Class of 1904 visited the Institute Wednesday. He has just returned from the Philippines where he has been serving for two and a half years as Aid with the U. S. Coast and Geodetic Survey.

While in the Philippines Mr. Kemper had charge of the topographical survey of the northeast coast of Samar, and of half of the hydrographical work. With the steamer "Pathfinder," he was in charge of the topographical survey of the east coast of Samar and of the south coast of Panay.

Mr. Kemper returned to the United States by way of India and the Suez Canal.

SENIORS VISIT LOCOMOTIVE WORKS.

Eight members of the fourth year Course II, Locomotive Option, left on the 1 o'clock train yesterday afternoon for Philadelphia, where they are to inspect the Baldwin Locomotive Works. They are accompanied by Prof. Lanza and Mr. Smith of the Mechanical Engineering Department. Prof. Lanza is expected to return tonight. Some of the men will come back with him and others remain over Sunday. The students on the trip are: Boles, Dodge, Middleton, Moller, Rambo, Rich, Richardson, and Thayer.

The Harvard Athletic Council has appointed Theodore Roosevelt, Jr., second assistant manager of the crew.
